

Surveys of the Estate

Courtyard

Between 2008 and 2011 volunteers from the Chichester and District Archaeology Society completed a detailed geophysical survey of the villa field

Aisled building (1)

Later high quality masonry house (2)

Hypocaust - probably part of a bath house (3)

Original masonry house (4)

In February 2015 Historic England used their latest Ground Penetrating Radar aerial to survey the same field – revealing yet more features

Courtyard

Additional responses not seen on resistivity survey

Original masonry house (4)

Aisled building (1)

Later high quality masonry house (2)

Hypocaust - probably part of a bath house (3)
